

CARLA ROCHA SOARES

Architectural Design Professional | Construction Project Management Student

+64 20 4137 7166 | carla_rocha_soares@hotmail.com

PROFESSIONAL PROFILE

Architectural Design Professional with over a decade of experience across architectural design, environmental performance, bespoke joinery and technical documentation, including extensive work in residential projects. Currently pursuing a Master of Management (Construction Project Management) in Auckland, with a career focus on project coordination, residential construction and redevelopment in New Zealand. Brings strong analytical thinking, attention to detail, planning, coordination and documentation skills developed across Brazil and Australia.

CORE SKILLS

- Architectural & residential design
- 3D modelling & visualisation
- Technical documentation & construction drawings
- Project planning & coordination
- Sustainable & environmental performance analysis
- Stakeholder & multidisciplinary collaboration

PROFESSIONAL EXPERIENCE

TDK Arquitetura / Stefany Todaka Arquitetura | Architectural Design Professional | São Paulo, Brazil | 2020 – Present

- Develop architectural and residential interior projects from concept design through detailed technical documentation.
- Produce layouts, technical drawings, 3D models, bespoke joinery documentation and project budgets.
- Translate client requirements into functional design solutions, coordinating spatial planning, finishes, lighting, furniture and custom cabinetry.
- Support project coordination through accurate documentation and multidisciplinary communication.

Ornare | Technical Assistant / Residential Joinery Design | São Paulo, Brazil | 2014–2017 / 2019–2020

- Developed bespoke joinery solutions for high-end residential projects, working with architects and clients.
- Prepared detailed technical documentation to support fabrication, installation and project delivery.
- Coordinated design requirements, quotations and project information across commercial and technical stages.

Jones Sonter Architects | Architectural Intern / Design Support | Sydney, Australia | 2013–2014

- Assisted with design development and architectural documentation for residential and commercial projects.
- Gained international practice experience and exposure to professional workflows in an Australian architectural environment.

OTEC – Energy Efficiency Consulting | Energy Efficiency Consultant / Intern | São Paulo, Brazil | 2011–2013

- Participated in environmental performance assessments and sustainable building certification projects, including LEED-related work.
- Produced building models and thermal, energy and daylight analyses to support design decisions and technical reporting.
- Contributed to major projects including environmental performance evaluation associated with Castelão Stadium.

EDUCATION & PROFESSIONAL DEVELOPMENT
